Authorized Nucraft Independent Representative list, by markets served are attached. Over 500 dealers provide sales, support, and service throughout all sales markets.

Standard Terms of Payment

Nucraft standard terms of payment are 1% ten days, net 30 days.

Competition in the Market

Nucraft competes with all commercial industry furniture manufacturers, including Bernhardt, Geiger, Gunlocke, HBF, Neinkamper, and Tuohy.

What Differentiates Nucraft From Competitors

Nucraft commits to total organizational engagement in every aspect of business to assure industry leadership in: innovative product solution development, operations planning and manufacturing, customer planning/project, quoting support, customer service support, and production/scheduling management.

With full engagement from the Nucraft Senior Leadership Team, programs such as daily Customer Service Stand Up meetings, Continuous Improvement Kata (CI) initiatives, and iSpec online product configuration and specification program, Nucraft provides fully engaged customer commitment from planning through installation.

Our philosophy is straightforward: We don't do it if we can't do it better than it's been done. Innovation is the result. Our solutions integrate technology and fine furniture in completely new ways. Our customers are demanding, and so are we. Like our customers, Nucraft is a results oriented organization. We work hard and expect a great deal, and know that the talents, competency, and commitment of each employee are what ultimately serve our customers.

Marketing of Contract

Nucraft will market the contract through direct introduction of the contract resources and value to Nucraft's national network of Authorized Representatives and dealers. Upon award of the contract Nucraft will conduct a series of presentations and communications to its Authorized Representatives to provide an overview of the contract customer markets, contract operational information, and market/customer selling coaching. Nucraft will also add the contract information to its Government section of the Nucraft website.

Introduction of NCPA to Nucraft Furniture

Upon award of a contract Nucraft will prepare and present powerpoint introduction/overview contract information in two formats:

- Internal series of introduction/overview sessions for Nucraft corporate departments.
- Introduction/overview sessions to Nucraft Authorized Sales Representatives

Capabilities and Functionality of On-Line Catalog/Ordering Website

Nucraft's complete product catalog is available at Nucraft's website. In addition Nucraft offers customers the advantage of its iSpec online interactive product configuration and specification program as a no charge resource for hands-on development and specification of product requirements.

Due to the complexities and vast number of product, part, and component options, Nucraft, similar to most firms in the contract furniture industry, does not promote on-line ordering of furniture products. Configuring office furniture solutions requires the assistance of a skilled dealer/designer. Nucraft dealers provide support in the planning, specification, and ordering of Nucraft products, and are a reliable resource for meeting customer needs.

Nucraft Customer Service

Nucraft Customer Service is managed at Nucraft company headquarters in Comstock Park, MI.

Customer Service support is provided by six (6) Customer Service representatives who each handle assigned geographic regions of the country, Each Customer Service Representative has an identified back-up Representative who is familiar with all projects and is available for support in the absence of the Customer Service Representative. The Customer Service Representatives are supported by in-house Sales Market Managers. The Market Managers provide decision support for the Customer Service Representative, Nucraft Representative, dealer, and customer.

Green Initiatives

Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect. To that end, following are just some of the practices we follow in support of our environmental beliefs:

- Our products are manufactured to meet one or more of the following credit requirements of the U.S. Green Building Council's LEED Rating Systems. (Please reference individual Environmental Statements for product specific attributes):
- Credit MR 4.1 - Recycled Content (10%)
- Credit MR 4.2 - Recycled Content (20%)
- Credit EQ 4.5 - Low Emitting Materials: Systems Furniture and Seating
- Credit MR 7 - Certified Wood (50%)

We buy hardwood veneers grown in U.S. forests managed for sustainable yields.

Our finishes are formulated for employee safety and low environmental impact, and we meet, and often far exceed, all government emissions standards

We have Environmental Management System (EMS) practices in place that support the reduction of waste and promote recycling throughout our workplace

We contribute corporate resources to organizations that share our respect and commitment to the environment

As a manufacturer of high quality wood furniture, we understand the obligation we owe Nature for our success. We acknowledge this debt by striving to be environmentally sensitive in all that we do.

Nucraft Sustainable Policy and Brochure are included in this proposal binder.

Vendor Certifications

To the best of our knowledge Nucraft does not have any licenses, registrations, or certifications issued by any Federal, State, or Local governments that would apply to this request.
